Delivery Note – Buyer Name in Register

Introduction

When you create a Delivery Note / Delivery Challan in TallyPrime, the Delivery Note Register (List of All Delivery Note Vouchers) shows the Particulars column.

By default, Tally often shows only the stock item name in Particulars. The user cannot quickly see which buyer (party) the delivery note belongs to.

This add-on changes the Particulars column for Delivery Notes to show:

Buyer Ledger Name - Item Name

Example: Divya Infotech - Apple I1

So from the register list itself, you get a clear idea of each Delivery Note — who is the party and which item was delivered.

Note: Tally release should be TallyPrime.

Important!

Take backup of your company data before loading any new TDL / Add-on.

What changes (Before / After)

BEFORE (Default Tally)	AFTER (This Add-on)
Particulars column shows only: Apple I1 User cannot see WHO received the delivery from the list.	Particulars column shows: Divya Infotech - Apple I1 Buyer (ledger) name + Item name Clear idea of each Delivery Note.

Figure 1: Before = item only · After = buyer name + item name

Setup Guide

Step 1 — Load the TDL file (one-time)

1. Open TallyPrime and open your company.
2. Go to Gateway of Tally → F1: Help → TDL & Add-On → F4: Manage Local TDLs.
3. Set Load TDLs on Startup to Yes.
4. Specify the full path of delivery-note-party-name.tdl (as given by Plug And Play Computers).
5. Accept. Restart TallyPrime if prompted, then open the company again.

There is no separate menu to enable. Once loaded, Delivery Note Register automatically shows buyer name with item name.

Step 2 — Open Delivery Note Register

Open the list of Delivery Notes in the usual way, for example:

Go to Gateway of Tally → Day Book (or Voucher Register), and select voucher type Delivery Note.

Or open your inventory / Delivery Note register from Display More Reports (as available in your Tally menu).

Screen title will look like: List of All Delivery Note Vouchers.

Step 3 — Read Particulars column (main result of this code)

In the register, look at the Particulars column. This TDL changes it to:

Buyer Ledger Name - Item Name

Divya Infotech = buyer / party ledger Apple I1 = stock item on the delivery note

UNDERSTANDING THE PARTICULAR COLUMN (This TDL result)

Date	Particulars	Vch Type	Vch No.	Qty
19-Jul-26	Divya Infotech - Apple I1	Delivery Note	1	1 nos

1. BUYER NAME
(Party Ledger)

2. ITEM NAME
(Stock Item)

Format shown by this code: Buyer Ledger Name - Item Name

User can identify WHO received the delivery from the register list itself.

Figure 2: Easy guide — how to read Particulars after this TDL

Real Tally screen (after loading this code)

Open List of All Delivery Note Vouchers. In the yellow highlighted row, the Particulars column shows buyer name and item name together.

Divya Infotech - Apple I1 → Buyer (party ledger) + Item (stock item)

ZOOM: Particulars column on real Tally screen

Voucher Register			Abc Limited Company
List of All Delivery Note Vouchers			
Date	Particulars	Vch Type	
19-Jul-26	Divya Infotech - Apple I1	Delivery Note	

Divya Infotech = BUYER (Party Ledger)
Apple I1 = ITEM (Stock Item)

Figure 3: Zoomed real Tally screen — Particulars = Buyer Name - Item Name

Full register row (real Tally)

Voucher Register						Abc Limited Company
List of All Delivery Note Vouchers						1-Jul-26 to 31
Date	Particulars	Vch Type	Vch No.	Inwards Quantity	Outwards Quantity	
19-Jul-26	Divya Infotech - Apple I1	Delivery Note	1			

Particulars: Divya Infotech (Buyer) - Apple I1 (Item)

Figure 4: Full register row as seen in TallyPrime

You do not need to open the voucher to know who received the delivery.

How to use every day

1. Create Delivery Notes as usual (no extra fields required).
2. Open Delivery Note Register / Day Book for Delivery Notes.
3. In Particulars, identify party and item at a glance — no need to open every voucher.
4. Press Enter on a line to open the voucher for full details if needed.

Quick path reference

Action	Path / Detail
Load TDL	F1: Help → TDL & Add-On → F4 → load delivery-note-party-name.tdl
View register	Day Book / Voucher Register / Delivery Note list
What you see	Particulars = Buyer Name - Item Name
Example	Divya Infotech - Apple I1
Applies to	Delivery Note voucher type only

Notes

- This change is only for Delivery Note type vouchers in the register list.
- Other voucher types (Sales, Purchase, etc.) keep Tally's normal Particulars display.
- If party name is blank, only item name is shown. If item is blank, only party name is shown.
- Printing of Delivery Note voucher format is not changed by this add-on — only the register list Particulars.

FAQ

Which Tally version is required?

TallyPrime. Load the provided delivery-note-party-name.tdl file as in Step 1.

Do I need to enter extra data in the voucher?

No. Use party ledger and stock items as usual while making Delivery Note. The register list automatically shows both names.

Where do I see the buyer name?

In Delivery Note Register / Day Book list, under the Particulars column: Buyer Name - Item Name.

Will Sales Register also change?

No. This customization is guarded for Delivery Note voucher type only.

Particulars still shows only item name.

Confirm the TDL is loaded (F1 → TDL & Add-On → F4), restart TallyPrime, and open a Delivery Note type list (not another voucher type).

Does this change the printed Delivery Challan?

No. It only improves the on-screen register / list of Delivery Notes.
